INDEPENDENT AUDITOR'S REPORT

To The Board of Supervisors
and the Grand Jury
County of Colusa
Colusa, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Colusa, California (County), as of and for the year ended June 30, 2007, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County as of June 30, 2007, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

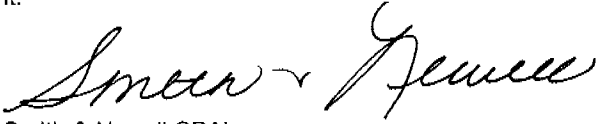

In accordance with Government Auditing Standards, we have also issued our report dated April 10, 2008, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The accompanying Required Supplementary Information, such as the Schedule of Defined Benefit Pension Plans Funded Status and the Budgetary Comparison Schedules as listed in the table of contents, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

The County has not presented a Management Discussion and Analysis report that the Governmental Accounting Standards Board has determined is required supplementary information, although not required to be part of the basic financial statements.

To The Board of Supervisors
and the Grand Jury
County of Colusa
Colusa, California

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section and the combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

A handwritten signature in cursive script, appearing to read "Smith & Newell", is written in black ink.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES - GOVERNMENTAL ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2007

Net Change in Fund Balances - Total Governmental Funds \$ (220,654)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay (\$2,600,269) exceeded depreciation (\$1,615,316) in the current period. 984,953

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the cost of the capital assets disposed. Proceeds from the sale of capital assets were zero. (124,745)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. This is the amount by which repayments exceeded proceeds. 427,044

Some revenues reported in the statement of activities will not be collected for several months after the County's year end and do not provide current financial resources and therefore are not reported as revenues in the governmental funds.

Change in accounts receivable (411,813)

Change in taxes receivable (88,134)

Some expenses reported in the statement of activities, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Change in inventory 82,576

Change in accounts payable 105,970

Change in compensated absences (399,333)

Internal service funds are used by management to charge the cost of certain activities, such as insurance and equipment maintenance and operations, to individual funds. The net revenue (expense) of activities of the internal service funds is reported with governmental activities. (13,888)

Change in Net Assets of Governmental Activities \$ 341,976

COUNTY OF COLUSA, CALIFORNIA
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The County operates under an Administrator-Board of Supervisors form of government and provides various services on a countywide basis including law and justice, education, detention, social, health, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

The accounting methods and procedures adopted by the County conform to generally accepted accounting principles as applied to governmental entities. These financial statements present the government and its component units, entities for which the government is considered to be financially accountable under the criteria set by Governmental Accounting Standards Board (GASB) Statement No. 14.

The governmental reporting entity consists of the County (Primary Government) and its component units. Component units are legally separate organizations for which the Board is financially accountable or other organizations whose component units nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County.

Reporting for component units on the County's financial statements can be blended or discretely presented. Blended component units are, although legally separate entities, in substance part of the County's operations and, therefore, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

Blended Component Units

Component units that are blended into the reporting activity types of the County's report are presented below:

Stonyford Maintenance

The Stonyford Maintenance District was established to provide maintenance services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

Thompson Street Lighting

The Thompson Street Lighting District was established to provide lighting services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

Almond Paradise

The Almond Paradise District was established to provide lighting services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

Walnut Ranch #1

The Walnut Ranch #1 District was established to provide lighting services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

Walnut Ranch #2,#3

The Walnut Ranch #2, #3 District was established to provide lighting services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

CSA #1 Century Ranch

The Colusa CSA #1 Century Ranch District was established to provide water services to district residents. The governing body is substantially the same as the primary government, and the County and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

CSA #2

The Colusa CSA #2 District was established to provide water services to district residents. The governing body is substantially the same as the primary government, and the county and the component unit are financially interdependent, hence, the unit is presented by blending with the primary government.

CSA #2 Reserve

The Colusa CSA #2 Reserve is a part of Colusa CSA #2 and as such has the same governing body and same financial interdependency, hence, the unit is presented by blending with the primary government.

CSA #2 Well Upgrade

The Colusa CSA #2 Well Upgrade is a part of Colusa CSA #2 and as such has the same governing body and same financial interdependency, hence, the unit is presented by blending with the primary government.

Discretely Presented Component Units

There are no component units of the County which meet the criteria for discrete presentation.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net assets and statement of activities display information on all the non-fiduciary activities of the County, and its blended component units. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities, which are normally supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each different identifiable activity of the County's business-type activities and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods and services offered by the program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The County reports the following major governmental funds:

- The General Fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the General Fund includes such activities as general government, public protection, health and welfare, public assistance, education, and recreation services.
- The Public Works fund is a special revenue fund used to account for revenues and expenditures for streets and road maintenance and expansion.
- The Tristar Brick Grant Fund is a special revenue fund used to account for revenues and expenditures for the administration of the Tristar Brick Grant.
- The CSA #2 Well Upgrade Fund is a capital projects fund used to account for revenues and expenditures related to the Colusa CSA #2 Well upgrade.

The County reports the following major proprietary funds:

- The Solid Waste fund is an enterprise fund used to account for activity related to solid waste activity.
- The Airport fund is an enterprise fund used to account for activity related to airport activity.

The County reports the following additional fund types:

- Internal Service Funds account for the County's Central Services Program, which provides services to other departments on a cost reimbursement basis.
- The Investment Trust Funds account for the assets of legally separate entities that deposit cash with the County Treasurer. The entities include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass through funds for tax collections for cities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.
- Agency Funds account for assets held by the County as an agent for various local governments and for individuals.

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

C. Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

For its business-type activities and enterprise funds, the County has elected under Governmental Accounting Standards Board (GASB) Statement No. 20, "Accounting and Financial Reporting For Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting", to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board or any Accounting Research Bulletins issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The County has elected not to follow subsequent private-sector guidance. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes accounting principles generally accepted in the United States of America (GAAP) for governmental units.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are accrued when their receipt occurs within thirty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds include trust and agency funds. All trust funds typically employ the same economic resources measurement focus and accrual basis of accounting as do proprietary funds. Agency funds, however, are unlike all other types of funds, reporting only assets and liabilities. So agency funds cannot be said to have a measurement focus. They do, however, typically use the accrual basis of accounting to recognize receivables and payables.

D. Cash and Cash Equivalents

For purposes of the accompanying statement of cash flows, the enterprise and internal service funds consider all highly liquid investments with a maturity of three months or less when purchased, and their equity in the County Treasurer's investment pool, to be cash equivalents.

E. Investments

The County sponsors an investment pool that is managed by the County Treasurer. The Treasurer invests on behalf of most funds of the County and external participants in accordance with the California State Government Code and the County's investment policy. State statutes authorize the County to invest its cash surplus in obligations of the U.S. Treasury, agencies and instrumentalities, corporate bonds, medium term notes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund.

COUNTY OF COLUSA, CALIFORNIA
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

E. Investments (Continued)

Investment transactions are recorded on the trade date. Investments are reported at fair value which is determined using selected bases annually. The fair value represents the amount the County could reasonably expect to receive for an investment in a current sale between a willing buyer and seller. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Cash deposits are reported at carrying amount which reasonable estimates fair value. Managed funds not listed on an established market are reported at the estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities.

Participant's equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Amortized premiums and accreted discounts, accrued interest, and realized gains and losses, net of expenses, are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements, as unrealized gains or losses are not apportioned to pool participants. During the fiscal year ended June 30, 2007, the County Treasurer has not entered into any legally binding guarantees to support the participant equity in the investment pool.

Income from pooled investments is allocated to the individual funds or external participants based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Interest income earned in agency funds where there are no interest earnings requirements are assigned to the General Fund per County Policy. Income from non-pooled investments is recorded based on the specific investments held by the fund. The interest income is recorded in the fund that earned the interest.

F. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include taxes, grants, and interest. Business-type activities report user fees and interest earnings as their major receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as taxes, grants, interest, and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 30 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. User fee receivable and interest earnings compose the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

G. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

- Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances". Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.
- Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. These services provide information on the net cost of each government function and therefore are not eliminated in the process of preparing the government-wide statement of activities.
- Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are treated as an adjustment to expenditures or expenses; that is, a corresponding increase in expenditures or expenses in the reimbursing fund and a corresponding decrease in expenditures or expenses in the reimbursed fund.

COUNTY OF COLUSA, CALIFORNIA
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

G. Interfund Transactions (Continued)

- All other interfund transactions are treated as transfers. Transfers between governmental and proprietary funds are netted as part of the reconciliation to the government-wide presentation.

See Note 3 for details of interfund transactions, including receivables and payables at year end.

H. Inventory and Prepaid Costs

Inventories are stated at cost (first-in, first-out basis) for governmental funds and proprietary funds. Inventory recorded by governmental funds includes postage and materials and supplies for roads. Governmental fund inventories are recorded as expenditures at the time the inventory is consumed. Reported inventories of governmental funds are equally offset by a fund balance reservation to indicate that portion of fund balance not available for future appropriation.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid costs. At June 30, 2007, the County had no material prepaid costs.

I. Loans Receivable

For the purpose of the fund financial statements, special revenue fund expenditures relating to long-term loans receivable arising from mortgage subsidy programs are charged to operations upon funding and the loans receivable are recorded. The balance of the long-term receivable includes loans that may be forgiven if certain terms and conditions of the loans are met.

J. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, bridges, sidewalks, water, sewer, and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the County as all land regardless of cost, structures and improvements and equipment with a cost of \$5,000 or more and infrastructure with a cost of \$50,000 or more. Such assets are recorded at historical or estimated historical cost. Contributed capital assets are recorded at estimated fair market value at the date of donation.

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements

In the government-wide financial statements, property, plant, equipment, and infrastructure are accounted for as capital assets.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>	<u>Estimated Lives</u>
Equipment	3-25 years
Structures and improvements	5-50 years
Infrastructure	20-75 years

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

COUNTY OF COLUSA, CALIFORNIA
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2007

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

J. Capital Assets (Continued)

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

K. Unearned Revenue/Deferred Revenue

Under both the accrual and modified accrual basis of accounting, revenues are recognized only when earned. Thus, the government-wide statement of net assets, governmental funds, and enterprise funds defer revenue recognition for resources that have been received at year-end, but not yet earned. Assets recognized before the earning process is complete are offset by a corresponding liability as unearned revenues. In addition, loans receivable for which repayment is deferred or for which the balance may be forgiven if certain terms and conditions of the loans are met have also been offset by unearned revenue. Under the modified accrual basis of accounting, revenues are recognized when earned and susceptible to accrual. Revenues are considered susceptible to accrual if they are measurable and available to finance expenditures of the current period. Thus, governmental funds also defer revenue recognition for revenues not considered available to liquidate liabilities of the current period.

L. Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of certificates of participation payable, loans payable, accrued compensated absences, capital leases payable, and closure/post closure liability.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund statements as it is in the government-wide statements.

M. Compensated Absences

The County's policy regarding compensated absences is to permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. The County includes its share of social security and medicare taxes payable on behalf of the employees in the accrual for compensated absences.

N. Net Assets/Fund Balances

The government-wide and business-type activities fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net assets – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

N. Net Assets/Fund Balances (Continued)

When both restricted and unrestricted net assets are available, unrestricted resources are depleted first before the restricted resources are used.

In the fund financial statements governmental funds report reserves and designations as segregated portions of fund balance. Reservations of fund balance are for amounts that are not available or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance are established by action of management and represent tentative plans that are subject to change.

At June 30, 2007, reservations of fund balance included:

Reserved for inventory - to reflect the portion of assets which do not represent available, spendable resources.

As of June 30, 2007, designations of fund balance were reported in the following governmental funds:

General Fund - to reflect management's intent to set aside certain amounts to fund the County's general reserve and to fund subsequent year expenditures not yet approved.

Special Revenue Funds - to reflect management's intent to set aside certain amounts to fund subsequent year expenditures not yet approved.

O. Property Tax Levy, Collection and Maximum Rates

The State of California's (State) Constitution Article XIII A provides that the combined maximum property tax rate on any given property may not exceed 1% of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100% of market value, as defined by Article XIII A, and may be adjusted by no more than 2% per year unless the property is sold or transferred. The State Legislature has determined the method of distribution of receipts from a 1% tax levy among the County, cities, school districts, and other districts.

The County of Colusa assesses properties and bills for and collects property taxes as follows:

	<u>Secured</u>	<u>Unsecured</u>
Valuation/lien dates	January 1	January 1
Levy dates	January 1	January 1
Due Dates	November 1 (1 st installment) February 1 (2 nd installment)	July 1
Delinquent dates	December 10 (1 st installment) April 10 (2 nd installment)	August 31

The term "unsecured" refers to taxes on personal property other than land and buildings. These taxes are secured by liens on the personal property being taxed. Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due and collected within thirty days after fiscal year-end.

The County of Colusa apportions secured property tax revenue in accordance with the alternate methods of distribution, the "Teeter Plan", as prescribed by Section 4717 of the California Revenue and Taxation code. Under the Teeter Plan, penalties and interest collected on delinquent secured taxes are required to be held in trust in the Tax Loss Recovery Fund (TLRF). The primary purpose of TLRF is to cover losses that may occur as a result of special sales of tax-defaulted property.

The County is legally required to maintain a minimum balance of 1% of the annual taxes levied on properties participating in the Teeter Plan. The balance in the TLRF was \$230,945 at June 30, 2007. The County's management believes that any ownership rights to the TLRF the County may have are effective only upon a Board approved transfer or to the extent of losses related to the sale of tax defaulted property. Amounts in the TLRF are considered to be held in a custodial capacity for the participants in the County's Teeter Plan and accounted for in an agency fund.

P. Grant Revenues

Certain grant revenues are recognized when specific related expenditures have been incurred. In other grant programs, monies are virtually unrestricted as to purpose of expenditure and are only revocable for failure to comply with prescribed compliance requirements. These revenues are recognized at the time of receipt, or earlier if susceptible to accrual criteria is met. Cash received prior to incurrence of the related expenditure is recorded as unearned revenue.

Q. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities.

In the fund financial statements, expenditures are classified as follows:

- Government Funds – By Character
 - Current (further classified by function)
 - Debt Service
 - Capital Outlay
- Proprietary Fund – By Operating and Nonoperating

R. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Restatement of Fund Balance/Net Assets

Adjustments resulting from errors or a change to comply with provisions of the accounting standards are treated as adjustments to prior periods. Accordingly, the County reports these changes as restatements of beginning fund balance/net assets. During the current year, an adjustment to net assets was required to record the retroactive reporting of infrastructure assets in accordance with GASB Statement No. 34. In addition, the County evaluated its classifications of funds and determined one fund would be more accurately reflected as a special revenue fund rather than as an agency fund as in prior years. The County adjusted the closure/post-closure liability to include the approved corrective action costs that had not previously been included.

The impact of the restatements on the net assets on the government-wide financial statements as previously reported is presented below:

NOTE 3: DETAILED NOTES

A. Cash and Investments

The County sponsors an investment pool that is managed by the County Treasurer for the purpose of increasing interest earnings through investment activities. The investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and by the County's investment policy. The objectives of the policy are in order of priority, safety, liquidity, yield and public trust. The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors reviews and approves the investment policy annually. The County Treasurer prepares a comprehensive investment report for the members of the oversight committee and the investment pool participants each month and submits the report quarterly. The report covers the type of investments in the pool, maturity dates, par value, actual cost and fair value. All cash and investments with the exception of deposits with fiscal agents and investments with fiscal agents are considered a part of the investment pool.

The County sponsored investment pool includes both internal and external participants. The portion of the pool attributable to external pool participants, which are considered involuntary participants, are included in the primary government as an Investment Trust Fund which does not have separate financial reports. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer. The net asset value of involuntary participation in the investment pool totaled \$23,516,101 at June 30, 2007.

As of June 30, 2007, the County's cash and investments are reported on the financial statements as follows:

Primary government	\$ 11,971,537
Investment trust funds	23,520,086
Agency funds	<u>393,285</u>
Total Cash and Investments	<u>\$ 35,884,908</u>

Total cash and investments of the County at fair value are comprised of the following:

Cash and Deposits:	
Cash on hand	\$ 371,274
Deposits (less outstanding checks)	(1,378,227)
Deposits with fiscal agents	<u>267,647</u>
Total Cash and Deposits	<u>(739,306)</u>
Investments:

Investments with fiscal agents	<u>193,069</u>
Total Investments	<u>36,624,214</u>
Total Cash and Investments	<u>\$ 35,884,908</u>

Deposits

The California Government Code requires California banks and savings and loan associations to collateralize a County's deposits by pledging government securities. The market value of pledged securities must equal at least 110 percent of a County's deposits. California law also allows financial institutions to collateralize County deposits by pledging first trust deed mortgage notes having a value of 150 percent of a County's total deposits. The County may waive collateral requirements for deposits which are fully insured up to \$100,000 by Federal Depository insurance.

A. Cash and Investments (Continued)

At year end, the carrying amount of the County's cash deposits (including amount in checking accounts, money market accounts, and cash with fiscal agents) was (\$1,110,580) and the bank balance was \$599,245. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. Of the bank balance, \$209,305 was covered by federal depository insurance and \$389,940 was uninsured and collateralized (i.e., collateralized with securities held by the pledging financial institution at 110 percent of the deposits, in accordance with the State of California Government Code, deemed to be held in the County's name).

Investments

As of June 30, 2007, the County's investments consisted of the following:

	Maturities			Fair Value	Weighed Average Maturity (Years)
	0-1 year	1-5 years	Over 5 years		
Investments in Investment Pool					
Government Agencies	\$ 6,988,360	\$ 25,664,249	\$ -	\$ 32,652,609	2.20
Local Agency Investment Fund (LAIF)	3,778,536	-	-	3,778,536	-

Total Investments	\$ 10,959,965	\$ 25,664,249	\$ -	\$ 36,624,214	1.96

Interest Rate Risk - Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in the market interest rate. Through its investment policy, the County manages its exposure to fair value losses arising from increasing interest rates by limiting the maturity of its investments to 5 years or less without Board of Supervisor's approval. Of the investments in the County's investment pool, over 30% of the investments have a maturity of one year or less. Of the remainder, none have a maturity of more than 5 years.

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in corporate bonds to the rating of A by both Standards & Poor's and Moody's Investors Service. The County does not have credit limits on U.S. government securities or U.S. government agency securities.

Investment	Standard & Poor's Rating	% of Portfolio
Federal Home Loan Bank	AAA	54.32
Federal Farm Credit Bank	AAA	8.06
Federal National Mortgage Association	AAA	19.03
Federal Home Loan Mortgage Corp.	AAA	8.22
LAIF	Unrated	10.37
Total		100%

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the County will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The County's investment policy does not contain legal requirements that would limit the exposure to custodial credit risk.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. Nearly 89% of the County's investments at year-end are in U.S. Government or Agency securities. There is no limitation on amounts invested in these types of issues. State law restricts the County's investments in commercial paper to 40% of its investment pool and to 10% per issuer. State law also limits the County's investments in corporate notes and negotiable certificates of deposit to 30% of its investment pool and to 10% per issuer. At June 30, 2007, the County's investments were in compliance with concentration of credit risk State law.

Investment in State Investment Pool - The County is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the County's investment in this pool is reported in the accompanying financial statements at amounts based upon the County of Colusa's pro-rata share of the fair value provided by LAIF for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis. At June 30, 2007, the County's investment position in the State of California Local Agency Investment Fund (LAIF) was \$3,778,536. The total amount invested by all public agencies in LAIF on that day was \$65,756,665,933. Of that amount, 96.534% is invested in non-derivative financial products and 3.466% in structured notes and asset-backed securities.

E. Short-Term Debt

The County issued tax anticipation notes in anticipation of property tax collections. These notes are necessary to fund current expenditure requirements. Short-term debt activity for the year ended June 30, 2007, was as follows:

	Beginning Balance	Issued	Redeemed	Ending Balance
Tax Anticipation Notes	\$ -	\$ 3,365,000	\$ 3,365,000	\$ -

F. Closure/Post Closure

Closure/Post Closure

The County of Colusa has one operating and one closed landfill site. State and federal laws and regulations require the County to perform certain closure and post-closure maintenance and monitoring functions at the site for 30 years after closure. GASB Statement No. 18 requires a portion of these closure and post-closure care costs be reported as an operating expense in each period based on landfill capacity used as of each statement of net assets date.

The total liability of \$2,579,479 is reported as closure/post-closure liability in the Solid Waste enterprise fund at June 30, 2007. Of this total liability, closure costs for Evans Road site is considered complete and therefore zero, and closure costs for Stonyford site is calculated based on usage of approximately 38 percent of total estimated site capacity and is \$66,454. The corrective action liability for Evans Road is \$1,259,500 and for Stonyford is \$323,380. The remainder of the total liability is for post-closure. Evans Road post-closure costs are estimated at \$719,100 based on usage of 100 percent and Stonyford post-closure costs are estimated at \$211,045, based on usage of approximately 38 percent. The estimated remaining life of the landfill is 15 years.

The County will recognize the remaining estimated cost of closure as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and post-closure care in 2007. Actual costs may be higher due to inflation, change in technology, or changes in regulations.

The County is required by State and Federal laws and regulations to provide financial assurance that appropriate resources will be available to finance closure and post-closure care costs in the future. At June 30, 2007, cash and investments of \$192,667 was held for funding purposes for Stonyford Landfill and \$19,551 was held for funding purposes for Evans Landfill. The County has approved a pledge of revenue to fund Evans Landfill post-closure costs, however the Landfill fund has a total deficit net assets of \$2,944,487. The County expects that future inflation costs will be paid from interest earnings on annual contributions to the closure reserve. However, if interest earning are inadequate or additional post closure care requirements are determined, (due to changes in technology or applicable laws or regulation, for example) these costs may need to be covered by charges to future landfill users or from future tax revenue.

NOTE 4: EMPLOYEES' RETIREMENT PLAN AND POST EMPLOYMENT BENEFITS

A. Defined Benefit Pension Plan

Plan Description

The County contributes to the California Public Employees Retirement System (PERS), an agent multiple-employer public employee defined benefit plan. PERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by statute. Copies of PERS' annual financial report may be obtained from their executive office – 400 P Street, Sacramento, CA 95814.

Funding Policy

Miscellaneous plan members are required to contribute 8 percent of their annual covered salary. Safety plan members are required to contribute 9 percent of their annual covered salary. The County is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the PERS Board of Administration. The required employer contribution rate for fiscal year 2006/2007 was 18.610 percent for miscellaneous employees and 33.346 percent for safety employees. The contribution requirements of the plan are established by State statute and the employer contribution rate is established and may be amended by PERS. The County is required to contribute the remaining amounts necessary to fund the benefits of its members using the actuarial basis adopted by the PERS Board of Administrators.

NOTE 4: EMPLOYEES' RETIREMENT PLAN AND POST EMPLOYMENT BENEFITS (CONTINUED)

A. Defined Benefit Pension Plan (Continued)

Annual Pension Cost

For fiscal year 2006/2007, the County's annual pension cost of \$1,884,590 for the miscellaneous plan and \$969,287 for the safety plan was equal to the County's required and actual contributions. The required contribution was determined as part of the June 30, 2004, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 7.75 percent investment rate of return (net of administrative expenses), (b) projected annual salary increases of 3.25 percent to 14.45 percent for miscellaneous plan and 3.25 percent to 14.45 percent for safety plan, depending on age, service, and type of employment, and (c) 3.25 percent per year cost of living adjustment. Both (a) and (b) included an inflation component of 3.00 percent. The actuarial value of PERS assets was determined using techniques that smooth the effect of short term volatility in the market value of investments over a three year period (smoothed market value).

Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into PERS. Subsequent plan amendments are amortized as a level percentage of pay over a closed 20 year period. Gains and losses that occur in the operation of the plan are amortized over a rolling period, which results in an amortization of 10% of unamortized gains and losses each year. If the plan's accrued liability exceeds the actuarial value of plan asset, then the amortization payment on the total unfunded liability may not be lower than the payment calculated over a 30 year amortization period.

NOTE 5: RISK MANAGEMENT

The County is a member of the Trindel Insurance Fund. The Trindel Insurance Fund is governed by a joint Powers Agreement between the member counties pursuant to Article 1 (commencing with Section 6500), Chapter 5 of Division 7, Title 1 of the Government Code of California. Its purpose is to provide for the creation and operation of a common risk sharing and insurance purchasing pool to be used to meet the obligations of the member counties to provide Worker's Compensation benefits for their employees and to provide public liability and property damage insurance for its members. The County is self-insured with Trindel Insurance Fund for liability and property claims for the first \$100,000 and \$25,000, respectively. The County is insured with CSAC-Excess Insurance Authority for excess liability claims for the next \$29,900,000. The County is also insured with CSAC-Excess Insurance Authority for excess property claims for \$300,000,000. There is a \$1,000 deductible for property damage. The County is insured for Worker's Compensation with CSAC-Excess Insurance Authority up to statutory limits. Additionally, the County has a \$10,000,000 Faithful Performance Blanket bond and Crime Bond with a \$5,000 deductible.

Complete audited financial statements for Trindel Insurance Fund can be obtained from their office at P.O. Box 363-317 Main Street, Suite 1, Sierra City, CA 96125. CSAC-Excess Insurance Authority audited financial statement can be obtained from their office at 3017 Gold Canal Drive, Suite 300, Rancho Cordova, CA 95670.

NOTE 6: OTHER INFORMATION

A. Construction Commitments

The County has signed agreements to construct various capital improvements subsequent to June 30, 2007. The balance owed on the commitments at June 30, 2007, was approximately \$289,308.

B. Contingent Liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the appreciable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The County is involved in several lawsuits. Due to the nature of the cases, County Counsel is unable to estimate at this time the probability of favorable or unfavorable outcomes. Therefore, no provision has been made in the financial statements for a loss contingency.

C. Subsequent Events

On July 2, 2007, the County invested in a Tax Revenue Anticipation Note (TRAN) for \$4,920,000. The interest rate on the Tax Revenue Anticipation Note is 4.50 percent and is to be repaid by June 25, 2008. All proceeds will be held in the Guaranteed Investment Contract (GIC).

COUNTY OF COLUSA
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2007

A. DEFINED BENEFIT PENSION PLANS

The schedule of defined benefit pension plan funded status display a historical summary of the Entry Age Normal Accrued Liability, the Actuarial Value of Assets, the Unfunded Actuarial Accrued Liability ("UAAL") or Excess Assets, the Funded Ratio, the estimated annual covered payroll and the UAAL as a percentage of covered payroll for the County's miscellaneous plan. Since the safety plan had less than 100 active members, effective for fiscal year 2002/2003 the plan was required to participate in a risk pool and does not present individual plan funded status.

B. BUDGETARY BASIS OF ACCOUNTING

In accordance with the provisions of Sections 29000 and 29143, inclusive, of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares a budget for each fiscal year on or before August 30. Budgeted expenditures are enacted into law through the passage of an Appropriation Ordinance. This ordinance mandates the maximum authorized expenditures for the fiscal year and cannot be exceeded except by subsequent amendments to the budget by the County's Board of Supervisor's.

The County follows these procedures annually in establishing the budgetary data reflected in the financial statements:

1. The Budget Committee consists of the Chairman and Vice Chairman of the board of Supervisors and the Auditor-Controller. This Committee submits to the Board of Supervisors a proposed draft budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
2. The Board conducts a public hearing on the proposed budget to obtain comments from interested persons.
3. Prior to July 1, the budget is adopted through Board order.
4. From the effective date of the budget, which is adopted and controlled at the department level, the amounts stated therein, as proposed expenditures become appropriations to the various County departments. The Board of Supervisors may amend the budget by motion during the fiscal year. The Board of Supervisors may authorize transfers from one object or purpose to another within the same department.

Formal budgetary integration is employed as a management control device during the year. The County presents a comparison of annual budgets to actual results for the County's General and Major Special Revenue funds. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). The County did not adopt a budget for the Tristar Brick Grant fund.

C. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The following fund had expenditures in excess of appropriations at June 30, 2007:

	<u>Expenditures</u>	<u>Appropriations</u>	<u>Expenditures In Excess of Appropriations</u>
General Fund	\$ 30,407,420	\$ 28,413,209	\$ 1,994,211

The expenditures incurred in excess of appropriations was primarily caused because TRAN proceeds receipt and repayment were not budgeted.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM
AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Supervisors and Grand Jury
County of Colusa
Colusa, California

Compliance

We have audited the compliance of County of Colusa, California (County), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. The County's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirement of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of the County is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

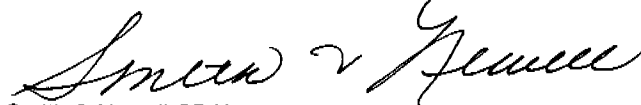

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the basic financial statements of the County of Colusa as of and for the year ended June 30, 2007, and have issued our report thereon dated April 10, 2008. Our audit was performed for the purpose of forming an opinion on the basic financial statements that collectively comprise the County's basic financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, the Board of Supervisors, others within the organization, and Federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

COUNTY OF COLUSA, CALIFORNIA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2007

1. GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal financial assistance programs of the County of Colusa. The County of Colusa reporting entity is defined in Note 1 to the County's basic financial statements. All federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included on the schedule.

2. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards is prepared on a basis other than that used to record transactions in the accounting records and as reported in the basic financial statements. Sources of information for preparation of the Schedule of Expenditures of Federal Awards varies, depending on the accounting practices and reporting requirements of the department implementing the program.

3. RELATIONSHIP TO FINANCIAL STATEMENTS

The amounts reported in the accompanying Schedule of Federal Awards agree, in all material respects, to amounts reported within the County's financial statements, federal award revenues are reported principally in the County's financial statements as inter governmental revenue in the General and Special Revenue Funds.

4. PROGRAM CLUSTERS

Federal programs, which must be audited together as a program closure, include the following:

<u>Federal CFDA</u>	<u>Program Title</u>	<u>Federal Expenditures</u>
<u>Food Stamp Cluster</u>		
10.551	Food Stamps	\$ 1,316,983
10.561	State Administrative Matching Grants for Food Stamp Program	<u>145,133</u>
	Total	<u>\$ 1,462,116</u>

5. PASS-THROUGH ENTITIES' IDENTIFYING NUMBER

When federal awards were received from a pass-through entity, the Schedule of Expenditures of Federal Awards shows, if available, the identifying number assigned by the pass-through entity. When no identifying number is shown, the County determined that no identifying number is assigned for the program or the County was unable to obtain an identifying number from the pass-through entity.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors and Grand Jury
County of Colusa
Colusa, California

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Colusa, California (County), as of and for the year ended June 30, 2007, which collectively comprise the County's basic financial statements, and have issued our report thereon dated April 10, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the County's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the County's financial statements that is more than inconsequential will not be prevented or detected by the County's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the County's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that we reported to management of the County of Colusa, California, in a separate report dated April 10, 2008.
